Roberto Fajardo Duro

BLOCKCHAIN DATA & ANALYTICS DEVELOPER

Data professional with strong initiative and deep interest in DeFi. Experienced in turning complex on-chain data into actionable insights, risk evaluations, and yield optimization strategies

📞 (+34) 601393656   ✉️ robertofd31@gmail.com   🌐 Madrid, Spain

EXPERIENCE

FOUNDER & DATA ENGINEER | ORWEE
March 2023 - Present
- Designed and implemented the project's end-to-end cloud architecture
- Complete ETL system and a custom API to deliver real-time data to the app
- Implemented machine learning and algorithms to generate advanced analytics

DATA HUB SPECIALIST | BANK SABADELL
September 2024 - January 2025
- Monitored and validated the performance of complex credit risk models
- Designed data process workflows and developed analytical programs in SAS
- Managed and queried large-scale financial databases using SQL

ON-CHAIN DATA ANALYST | CHAINTAXFLOW (FREELANCE)
February 2025 - June 2025
- Developed an on-chain methodology to track LP transactions for tax compliance
- Deployed and managed the project's complete backend infrastructure
- Built an AI agent with to automate crypto tax regulation inquiries

DEFI ANALYST | ALBEIT CAPITAL
October 2022 - August 2024
- Created interactive Power BI dashboards for strategic investment decisions
- Developed Python-based ETL processes integrating APIs and web scraping
- Automated key reporting processes, enhancing operational efficiency

DATA SCIENTIST | PLUTUS (FREELANCE)
November 2023 - January 2024
- Analyzed the $PLU token's tokenomics and its potential for appreciation
- Modeled the longevity of the token's and simulate multiple scenarios
- Estimated the intrinsic value captured by different customer segments

EDUCATION

BIG DATA MASTER DEGREE | EUROPEAN UNIVERSITY
2022 - 2023

STATISTICS BACHELOR DEGREE | COMPLUTENSE UNIVERSITY
2018 - 2022

SKILLS

- Problem-Solving
- Time Management & Planning
- Remote Work & Autonomy
- Entrepreneurial Mindstet
- DeFi & Crypto Knowledge
- Data Visualization
- AI & Machine Learning
- ETL & Data Pipelines

SOFTWARE

- Languages: Python, SQL, SAS, R
- Cloud: AWS
- Databases: MySQL, NoSQL
- BI & Visualization: Power Bi, Tableau
